1. In the near neighborhood of Eberswalde, about one kilometer towards Melchow, there is a Soviet radio station beside the railway line. This station had been enlarged as an aircraft control station. Its principal purpose will be to carry out air controls for night flying. The crew consists of an officer and 5 or 6 men, who are relieved every 24 hours. It is understood that a Freya device or fighter-control radar system (Würzburgriese) will shortly be installed.
